

**NEW!**

# Lynx<sup>®</sup> LED Illuminator

14-point LED illuminator for Lynx products

Vision Engineering's new 14-point LED illuminator incorporates the latest LED technology to provide bright white, shadow-free illumination for up to 10,000 hours.

14-point ringlight with custom-design aspheric lenses.

Power supply, with integral dimming light control and temperature control indicator.

Designed specifically for the Lynx stereo dynascopic microscope\*, the new LED illuminator offers improved performance and longer life, with a fraction of the running costs of conventional halogen systems.

### Key Benefits

- Brighter, whiter 14-point shadow-free illumination
- Latest generation LEDs provide provide over 10,000 hours of continuous viewing
- Reduced consumable and maintenance costs
- Reduced heat and energy to the subject

Together with the patented 'eyepieceless' optics of Lynx, the LED illuminator provides unrivalled comfort and clarity for a wide range of precision inspection and rework tasks.

\* Also compatible with Alpha and Beta stereo microscopes.

### LED illuminator selection

Objective lens	x0.5	x0.7	x1.0	x1.5	x2.0
Long working distance	■	■	-	-	-
Short working distance	-	-	■	■	■

### Technical data

14 high intensity LEDs with custom-design aspheric lenses	
Input voltage 100-240VAC 50/60Hz 0.9A Max	
> 500,000 LUX at maximum intensity	10,000 hours

Vision Engineering manufactures a comprehensive range of ergonomic stand-alone mono and stereo microscopes as well as a complete line of non-contact measuring systems.
